Re: File No. S7-19-07

Secretary Katz:

I write in support of the recently proposed shareholder proxy access rule referenced above. I think that this is a reform that is long overdue, and that the rule could be strengthened by the following changes:

Once triggered, access should be immediate.

The triggering percentage of withheld director votes should be 20 percent of the votes cast for and against.

Access should be triggered when a company fails to act on a shareholder resolution that wins a majority vote.

Companies should not be able to hide behind state laws that prevent shareholder director nominations.

Shareholders should be able to nominate as many directors as possible without reaching a majority of the board.

I thank you for your time and consideration.

Sincerely,
